

Aliyah AlGhunaim

QA Engineer | Application Security | Test Automation

Riyadh, Saudi Arabia | +966 558705497 | algunaim.aliyah@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Computer Science & Engineering graduate with hands-on experience in Software Quality Assurance, Test Automation, API Testing, and Application Security. Skilled in Cypress, Selenium, Postman, Burp Suite, OWASP Top 10, React.js, .NET, SQL, and Git. Passionate about delivering secure, reliable, and high-quality software.

TECHNICAL SKILLS

Testing: Manual Testing, Automation Testing, API Testing, Regression Testing, Smoke Testing

Methodologies: Agile (Scrum), SDLC, STLC

Security: OWASP Top 10, SQL Injection, Cross-Site Scripting (XSS)

Tools: Cypress, Selenium, Postman, Burp Suite, Git

Development: React.js, .NET, SQL

EDUCATION

B.Sc. in Computer Science & Engineering

University of Hafr Al Batin, Saudi Arabia - Graduated 2026

Achievement: 2nd Place in Cyberthon (Privacy Protection & Data Security)

PROFESSIONAL EXPERIENCE

Software Engineering Trainee | Ministry of Interior (General Dept. of Technical Affairs)

June 2025 – December 2025 | Riyadh, Saudi Arabia

- Developed React.js, .NET, and SQL modules based on Figma designs.
- Executed manual and automated testing using Cypress and Selenium.
- Validated REST APIs using Postman.
- Reported and tracked software defects throughout the SDLC.

Software Testing and Automation Trainee | Tuwaiq Academy

August 2025 – September 2025 | Riyadh, Saudi Arabia

- Built Cypress automation framework using the Page Object Model (POM).
- Designed and executed manual test cases under Agile and ISTQB practices.

Software Testing Fundamentals (CAST) Trainee | Tuwaiq Academy

January 2025 | Riyadh, Saudi Arabia

- Studied STLC, Black-box & White-box Testing, Boundary Value Analysis (BVA), and Equivalence Partitioning.

Projects

OrangeHRM Automation

- Automated end-to-end testing using Cypress (POM).
- Technologies:** Cypress, JavaScript.

API Testing

- Tested REST APIs using Postman.
- Technologies:** REST API, JSON.

Web Security

- Performed security testing using Burp Suite.
- Technologies:** Burp Suite, OWASP.

TryHackMe – Junior Penetration Tester

- Completed the Junior Penetration Tester learning path with hands-on labs in reconnaissance, web exploitation, and privilege escalation.
- Technologies:** Nmap, Linux, Burp Suite.

CERTIFICATIONS & TRAINING

- TryHackMe – Junior Penetration Tester (Completed)
- Software Testing & Automation Bootcamp – Tuwaiq Academy
- Software Testing Fundamentals (CAST)
- IBM Cybersecurity Fundamentals
- ISTQB Foundation Level (In Progress)

LANGUAGES

Arabic (Native) **English** (Professional Working Proficiency)
